Tinker Bell

A New Talent

Tinker Bell has just arrived in **Pixie Hollow**, the place in **Never Land** where the fairies live. Bobble and Clank, her new tinker friends, are showing her around.

IT'S TIME TO GET READY FOR QUEEN CLARION'S REVIEW!
WHAT'S THAT, BOBBLE?
QUEEN CLARION WILL BE CHECKING ON WHAT ALL THE FAIRIES HAVE PREPARED FOR SPRING!

It's a very busy time of the year in Pixie Hollow. The fairies are working very hard to bring the season of **spring** to the **Mainland**! Bobble explains that tinker fairies will prove they are worthy at Queen Clarion's review.

Tink is so excited! She really wants to go to the Mainland, and now she will be able to show how important tinkers are. She decides to work right away on her new ideas.

Soon, everything is ready in Springtime Square for Queen Clarion's review. The Minister of Spring is responsible for insuring that spring comes and goes in an orderly manner. He announces the arrival of the Queen.

QUEEN CLARION, YOUR EXCELLENCY. WELCOME TO SPRINGTIME SQUARE!
HELLO, EVERYONE!
EVERYTHING'S ALL SET, YOUR MAJESTY! AS SOON AS THE EVERBLOSSOM BLOOMS, WE'LL BE READY.

The band begins to play as the Queen arrives. The Minister leads Queen Clarion to inspect the preparations to bring spring to the Mainland.

Tinker Bell arrives with her inventions, riding on a cart pulled by Cheese, the mouse!

I CAME UP WITH SOME THINGS THAT TINKER FAIRIES CAN USE WHEN THEY'RE ON THE MAINLAND! TO BEGIN WITH...
An uneasy murmur ripples through the crowd, but Tinker Bell is way too excited to notice as she demonstrates her brand new acorn-opening device for little chipmunks...
TINKER FAIRIES ON THE MAINLAND? OH, NO! NOBODY HAS EXPLAINED TO HER!
OH, DEAR!
THAT ONE NEEDS MORE WORK.
SPROINK!
... which doesn't go very well. Not to be deterred, Tink carries on with her demonstration.
THIS IS A FLOWER PAINTER. THIS WILL MAKE OUR JOBS SO EASY! LOOK, MINISTER...
OOPS. SORRY.
SPLOOSH
TINK, DEAR.
Tinker Bell realizes all the fairies have gone silent. Queen Clarion takes her to one side and explains. She tells Tink that tinker fairies never go to the Mainland! They always work in Pixie Hollow...
... which means they can't travel out to see the world. Tink is very disappointed. She thought she would get her chance to travel, if only she could prove herself. Poor Tinker Bell!

Tink sadly leaves Springtime Square with Cheese. What will the little fairy do now? It is her big dream to go to the Mainland.

OH, OKAY... I COULDN'T MAKE IT ANYWAY. SO, I'M JUST GONNA GO...

Poor Tinker Bell. Maybe **Fairy Mary**, the head of the tinker fairies, can console her? Tink sits dejectedly at a mushroom as she tells the story to her friend. She knows Fairy Mary will have good advice.

TINKER BELL, ARE YOU A GARDEN FAIRY? OR A LIGHT FAIRY? OF COURSE YOU'RE NOT!

ONLY WHEN YOU CAN MAKE FLOWERS BLOOM, OR CAPTURE A SUNBEAM, WILL YOU BE ABLE TO GO TO THE MAINLAND. UNTIL THAT DAY, YOUR PLACE IS HERE!

WHY CAN'T TINKER FAIRIES GO AND WORK ON THE MAINLAND, FAIRY MARY?

HMM...

The next day at the **Pixie Dust Well**, the fairies visit **Terence**. He is the dust-keeper fairy, and his job is to pass out the pixie dust that all fairies need to be able to fly.

HERE YOU GO, SILVERMIST!

POOR THING! I FEEL SAD FOR HER. SHE LOOKED SO DOWNHEARTED YESTERDAY!

THANKS, TERENCE! HEY GUYS, I HOPE TINKER BELL'S FEELING OKAY.

Will Tinker Bell ever be able to accept her job as a tinker fairy? Turn to page 26 to find out....

Fairy Friends

Meet all the girls!

A fairy is born from a baby's first laugh. Here are some of the fairy friends you will have adventures with in Pixie Hollow!

Tinker Bell

I'm a tinker fairy. I live in a house made from a kettle in Tinker's Nook. I love to fix stuff. I like to think I'm determined and persistent! I've learned that every fairy is important, no matter what their talent! Meet my friend, Blaze!

Silvermist

Hi, Raindrop! I'm a fairy that likes to think positive. Sometimes I find it hard to make decisions, but my babbling brook helps me out with good advice! I'm a water fairy and I live next to a beautiful waterfall in Lilypad Pond. Fly with you later!

Fawn

Well, aren't you just a cute little fuzzy! I'm an animal fairy. I live in Pine Tree Grove with all my animal friends! I like to think I'm a bit of a tomboy and I like to laugh and joke. It's awfully easy to tease Iridessa, but I do love her. I love to play games too, so if you ever want a game of tag, come and find me!

Rosetta

Sweetpea, there's no reason to get your wings in a bunch! Being a garden fairy is so much fun, but it's hard work too. I live in a house made of flowers in Buttercup Canyon. I just adore giving beauty tips, so if you ever want a makeover, just drop by!

Iridessa

I've heard you're a little ray of sunshine! I just love the sun as I'm a light fairy. I do tend to worry about everything being just right. I'm quite a perfectionist! I can often tell when there's trouble brewing, but I do usually try to look on the bright side. I live in a brilliant sunflower right in Sunflower Meadow.

Do You Know?

Test your fairy knowledge with these quick questions about your new friends!

- Which fairy lives in Tinker's Nook?
- **Whose house is made out of flowers?**
- What type of flower does Iridessa live in?
- **Which fairy lives with the animals?**
- Who lives next to a waterfall?
- **What is the name of Tink's new firefly friend?**

Hint: All the answers can be found on this page!

All About Me!

A Water Fairy

Silvermist is a water-talent fairy. She can mold water into amazing shapes like dewdrops. Find out more about water-talent fairies below!

Water-talent Fairies:

- Can control water in all its forms and can shape it into just about anything.
- They make ripples on ponds and sprinkle plants with dewdrops to help them grow.
- They help light-talent fairies make rainbows and help animal-talent fairies teach water-dwelling creatures how to swim.
- They use water bubbles to send secret messages to other fairies.

The icon for a water-talent fairy is a water droplet.

Silvermist's dress tucks around her, with a few wavy little ripples.

The hem is shorter in front and in the back it curls up like a fish tail.

Her dress is a gorgeous calla lily. Silvermist's is a rare kind, which shimmers with pretty sea green and ocean blue colors.

Her slippers are made from the sturdiest part of the flower, where the calyx meets the stem.

Calla Lily

A calyx is a sturdy outer leaf that protects a flower bud as it develops.

Find a cobweb on this page.

Hold this page up to a mirror to see a secret message from Silvermist in the water bubbles!

ɐvɐilɐd I

!sɐiɹqiɹʇ ɯi

Water fairies give the shells they collect to tinker fairies like Tinker Bell. They use them to make useful things, such as this shell saw. A shell with a shiny inside makes a great fairy mirror!

Fairy Facts

Find out all about this shell mirror.

1 Mother-of-pearl Interior

Fairies can see their reflection in this mirror. They can also hear the sound of the ocean at the same time!

2 Rough Exterior

The rough, uneven outside of the shell is from its long journey in the sea before it was washed up on a beach.

3 Rocky Base

Sculpted by the ocean, this base is a solid, reliable support for a shell mirror.

Can you find 14 fishy friends on these two pages? If you can, make a goldfish face!

Sil's Rain Stick

Pixie Project

Create a magical instrument that imitates the sound of rainfall.

You'll Need:

- 1 cardboard mailing tube or a paper towel tube
- dark and light blue sticky paper
- 20 paper fasteners (brads)
- strip of sequins
- red beads
- small white buttons
- scissors
- small sea shells
- strong cardboard
- 2 handfuls of pebbles or dry rice
- light blue string
- non-toxic glue

Decorating Tip!
Color the ends of the paper fasteners with coral or pink nail polish!

1 Cover the tube with dark blue paper. Randomly push paper fasteners through the sides of the tube. If you want to be sure they stay in place, glue them in. Cut two four-inch circles out of the light blue sticky paper. You'll need these later on.

2 Cut the rest of the light blue paper into thin strips. Glue the strips in a spiral around the tube. Do the same with the strip of sequins. Decorate the tube by glueing on some beads, buttons, and shells. Let it dry thoroughly.

3 Cut two cardboard circles the same size as the end of the tube. Place each one in the center of one of your blue paper circles. Seal an end of the tube with a circle and fold the sticky paper down to form a rim. Pour the pebbles into the tube, and seal the other end the same way. Wind string around the sealed ends and tie it tightly.

Slowly tilt your rain stick to enjoy the gentle sound of rainfall!

Tink's Mobile

Pixie Project

Use the treasures of nature to make this pretty hanging mobile.

You'll Need:

- 3 sticks (1 long, 2 short)
- natural raffia
- cinnamon sticks
- 2 dried orange slices
- 5 walnut shells (split in half)
- uncooked rice
- 3 small pine cones
- non-toxic glue
- scissors

Decorating Tip!
If you'd like a more fragrant mobile, you could add pieces of star anise, cloves, or cypress cones.

1 To make the top part, twist four 16-inch pieces of raffia together. Tie a loop at one end. Thread on a cinnamon stick and an orange slice. Tie a knot just under them. Tie the middle of the raffia to the center of the long stick.

2 At the other end of your raffia, thread on an orange slice. Fill half a walnut shell with rice, then glue on its other half, keeping the raffia between them. Tie a cinnamon stick and a pine cone at the very bottom of the raffia. To make a side piece, start out by threading a cinnamon stick on to a 10-inch piece of raffia. Tie it to the center of a short stick, adding a pine cone at the other end. Do this twice.

3 For the smallest pieces, decorate a 5-inch piece of raffia with cinnamon sticks and walnuts filled with rice. Tie it to one end of a short stick. Do this three more times. Then tie the two side pieces you've just made to the ends of the long stick of the top part. If you want to, you can hide the knots by adding raffia bows. Hang your mobile up, adjusting the pieces until everything is balanced. Good job!

Hang your mobile in your room!

Continued from page 6. Let's find out if Tinker Bell will be happy to remain in Pixie Hollow!

Suddenly, Tink appears at the Pixie Dust Well. She doesn't seem sad, she looks really happy! What has happened to change her mood?

TINK! ARE YOU FEELING OKAY?
NEVER BETTER, ROSETTA! I'VE MADE UP MY MIND; I'M NOT GOING TO BE A TINKER FAIRY.
NOT GOING TO BE A TINKER FAIRY? HUH?
MAYBE I CAN CHANGE MY TALENT!
CHANGE TALENTS? GEE, I'VE NEVER HEARD OF SUCH A THING!
WELL, I GUESS YOU COULD TRY!

Tink explains that if another fairy teaches her a new talent, the Queen should let her go to the Mainland. Tinker Bell declares that she wants more out of life than making pots and pans!

And so, Tinker Bell's training as a water fairy begins. Silvermist explains they could start with learning how to make waves, or maybe how to create raindrops. Or perhaps...

Silvermist shows Tink how to gently gather a ball of water to form a dewdrop.
JUST CUP YOUR HANDS AND THERE YOU GO!
THAT'S AMAZING!
The water fairy demonstrates how to toss the ball of water lightly on to a cobweb...
NOW COMES THE HARD PART, PUTTING THE DEWDROP ON TO THE COBWEB!
THERE!
PLIP
PLOP
WOW!
... to form a sparkling dewdrop!
Tinker Bell thinks she can do it. All the fairies encourage her as she manages to form a ball of water. But when she tosses it towards the cobweb she forgets about throwing it gently!
I THINK I'VE GOT IT... GENTLY... AND NOW...
THERE!
SPLAAAT
The dewdrop bounces off the cobweb and directly back towards the fairies...
UH-OH!

... completely soaking Silvermist! The water fairy realizes Tink should try a different talent.
YOU KNOW, TINKER BELL, YOU MIGHT CONSIDER BECOMING A LIGHT FAIRY!
OKAY!
OH, NO!

Will Tinker Bell succeed in finding a new talent? Or will she remain a tinker fairy forever?
ON TO THE NEXT BIG ADVENTURE!
There are lots of other talents to try out in Pixie Hollow! The more you discover, the more exciting they get!

Animal Friends

Fairies and squirrels are great friends, they love working together and helping each other.

Let's go with Fawn and find out more about our inquisitive woodland friends, as they scamper about on the Mainland and in Pixie Hollow.

On the Mainland

Balancing Act

Squirrels have long, bushy tails that help them keep their balance as they leap from branch to branch. They're experts at climbing trees, thanks to their sharp, curved claws. A squirrel's favorite meal is seeds, leaf shoots, berries, acorns, and hazelnuts.

At Home

A squirrel usually lives in a tree. They like the woodland but are just as at home in a city park. Most of a squirrel's day is spent above the ground in a tree. It makes its home in the branches, building a den of twigs in the fork of a branch or a hole in the trunk. A squirrel's nest is called a drey.

Favorite Food

To eat, a squirrel sits squarely on its back paws and holds the food in its very agile front paws.

In Pixie Hollow

Useful Tools

Squirrels help the fairies gather hazelnuts, acorns, and walnuts. Tinkers use them to create bowls, ladles, and assorted pots. Nuts are very important to the fairies and to the squirrels!

Tink's tip:
Don't feed wild squirrels! They need to be able to forage for their own food.

Musical Instruments

Squirrels give their empty nut shells to the fairies. The fairies then use the leftover shells to make tuneful musical instruments, like this pretty lute.

Spring Surprise

Squirrels hibernate in the winter. Animal fairies have a special way of letting squirrels know its spring. They hang strings of walnuts outside the squirrels' dreys. As the walnuts rattle together, the familiar knock-knock sound wakes the squirrels up gently.

Color all the butterflies you can find on these two pages.
